

Sinclair broadcasting company "heads" should not be allowed to show the Kerry Film they choose without showing other sides. They are blatantly outright onesided and in doing so, if they have to show propaganda to get their point accross, they will. They play God. They choose to voice their opinions only. I feel they misuse the media formats of their company and I believe they must have some FCC rule(s) that they consistently violate. I believe in free speech and the first amendment. If they are going to show this film (and I have no idea what the context), then they should also show oposing opinon documentaries, etc. They show only what they want to show. In Asheville, they are an ABC affiliate and they chose not to show war coffins and tribute. I have a right to see these and with it being an ABC show, it wasn't shown in Asheville. They are such big Bush supporters and it has interfered with what the media should truly be. They are taking advantage of the FCC, affiliates, audiences. They are no different than North Korea in that NK broadcasts propaganda to the people as "Big Brother". They can not be allowed to continue selectively and dishonestly slant their opinions in the name of the FCC.

thank you for your time,
Debi McClure
